“Developing EU through online innovation”

EU Online Meetings

Introduction

Developing EU through online innovation is a project aimed at the development of online courses provided through e-learning platform.

The courses consist of different materials, and each country has a set task. The material will be translated into all the languages giving greater access to them. The courses will be bound and free of charge, besides facilitating the delivery of some campus classes that equip students for psychological support for better development of the skills required.

The courses are primarily aimed for students who are between the ages of 50-70 years and are unemployed.

Throughout these 3 years, 7 meeting will be held to discuss the development of the project and to experience each partner's culture and the practices they use.

Here you have a short summary of each international meeting.

First Meeting in Grobiņa, Latvia on the 28th & 29th of October 2015

The first, *Developing EU through online innovation*, International meeting was mainly aimed at discussing the project implementation. The participants

introduced their organization and demonstrated an analysis of the job market in their country today.

The tasks were distributed to each partner countries to present at the second International meeting in Málaga. It was decided that 3 chapters of each programme will be developed for each project meeting. The format of the chapters and the length of the materials were discussed. The participants agreed that the created materials will be placed on the project website.

“Developing EU through online innovation”

Second Meeting in Málaga, Spain on the 25th & 26th of April 2016

The second international meeting of the Project “Developing EU through online innovation” was celebrated in Málaga. IPF International Consulting were the organising partners.

The meeting focused mainly on the development of the new steps in our project. Each of the countries participating in the project presented their first three chapters of their agendas and the other participants gave their feedback

and discussed any improvements that each chapter may need.

Moreover, many issues related to the development of this project were spoken, including the obligations and responsibilities of each country. The design, by the Italian partners and advertising methods were analysed and we discussed the best way to reach the target group.

It was a very dynamic meeting in a unique environment and it was very beneficial for the evolution of our project.

These International meetings are the perfect way to evolve and make the project grow in the best possible way.

From this all the participating partners agreed that online education is growing!

Third Meeting in Nicosia, Greece on the 26th & 27th of June 2016

On the 26th and 27th of June the third International meeting of the project was held in Nicosia, Greece.

The meeting consisted mainly on the presentation of the chapters 4-6, which we are gradually completing to create our future virtual course. Each of the participating countries presented their ideas and together decided which is the best structure for the development of the project.

Along with the presentation of the chapters it was confirmed the aspects concerning what will be our future website, its design, organization, languages etc. as well as all technical aspects that are necessary for correct development. The host organization, in this case the Cypriot partners, prepared a wonderful meeting where we enjoyed a fruitful relationship and covered and closed most of the issues concerning the coming months of the Project. Besides this we had the opportunity to enjoy the gastronomy and the magnificent Cypriot culture.
