

TURGUTLU KAYMAKAMLIĞI

TÜRKİYE

Turgutlu Kaymakamligi (District governorship of Turgutlu) is the highest public authority in the town of Turgutlu. The institution controls and cooperates with all the public and private institutions in the town, including schools, adult education centres, NGOs etc. Within various tasks, the governorship is also responsible for social affairs, education and health. The Governorship manages and coordinates delivery of all the public services such as security, health, education, culture, and social services, etc. Education and training of the personnel working in different institutions is very important in increasing the standards of life in the town; thus, the governorship struggles to raise the quality of education and it is active in training and education field. When it comes to training and education, the target group of the governorship is very large and ranges from school children to people in the job market. The EU and Foreign Relations Office, which is a sub-unit of the Governorship works in order to increase awareness on the EU accession period in Turkey. The Center develops multilateral European projects on school and adult education, culture, social inclusion, and other social subjects. As a governmental organization it also provides free guidance and counseling services for organizations working on youth, women and adult education, inclusion and empowerment of disadvantaged groups.
